FORWARD

We, the staff, have worked hard to make this book more than a decoration on your bookshelf. We have endeavored to capture the persons, places, and events that make a school year.

Our story shows the activities of our school. It retains some of the joys and pleasures of the past year.

With this in mind, it gives us great pleasure to present to you; your 1959 Indianian.

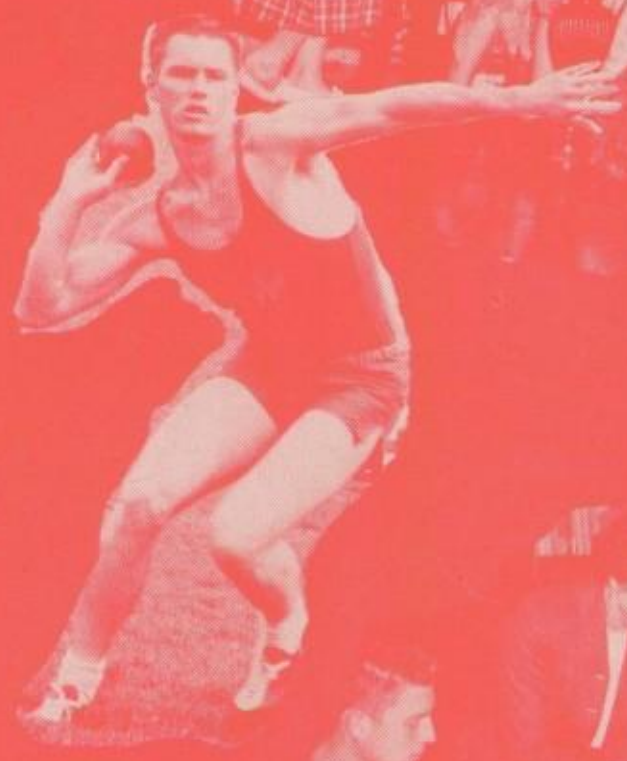
REMEMBERING . . .

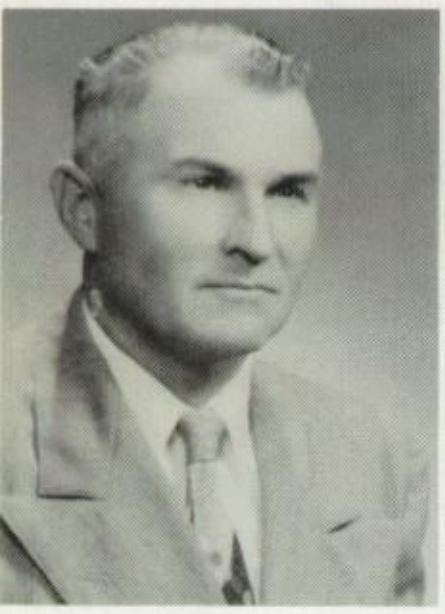
With mixed emotions we remember the past school year -- the happiness, regrets, joys and sorrows. . . . the excitement of the Sectional. . . . the beauty of the Prom. . . . the fun we had at play practice. . . . As we went to classes, studied, joined clubs, cheered at the ball games, ate Pizza Pie, and returned our report cards to the office on time, we were imprinting these memories of our high school days to look back upon in later years. With this thought in mind, we, the Senior Class, have tried to recapture the memories of the past school year in words and pictures.



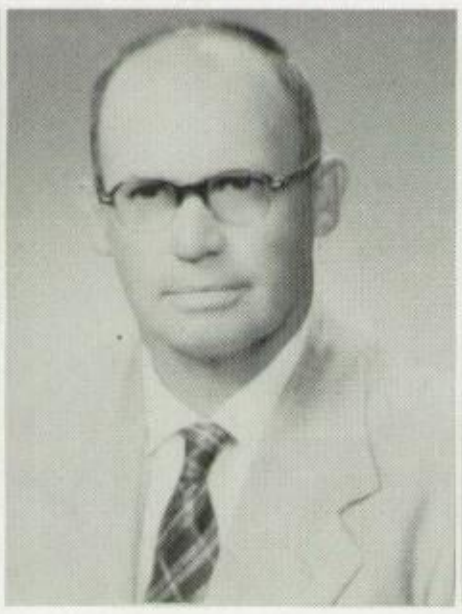
ADMINISTRATION

SCHOOL BOARD

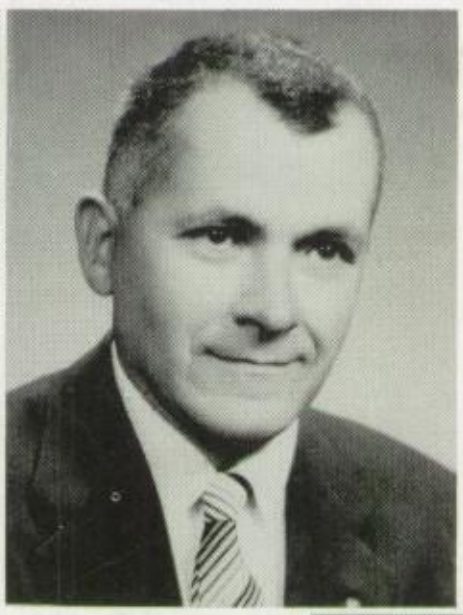
Mr. Hayes is completing his second year here at Montpelier. We have enjoyed working with him very much. His understanding and guidance have helped many of us through this past year. With Mr. Hayes' leadership, we have seen many forward looking changes in our school.



Walter Rogers, President of the School Board, has now been a member for four years. His occupation is farming.

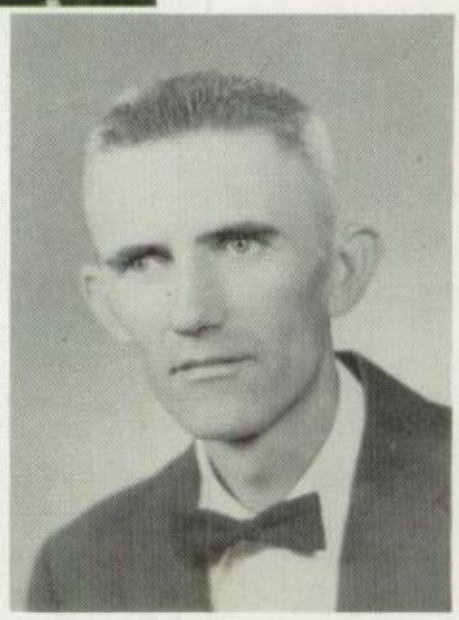


Frank Johnson, Secretary, is serving his second term after being reappointed in 1957. He resides on a local farm.



Harris Bontrager, Treasurer, is completing his third year of a four term on the School Board. He is proprietor of "Bontragers Drug Store."

We would like to thank the School Board for the splendid work and their helpful services which they have provided for our school. They have given their full co-operation in helping our school become a bigger and better one. We would like to credit them for improving school facilities and making the school better for the attending students.



Charles Beymer, past president of the School

Dan Markley is serving his first year on the School Board. He is the local manager of the Markley's Furniture Store. We look ahead to a pleasant future relationship with him on our School Board. We are sorry that Mr. Markley's picture was not available.

ADMINISTRATION

Beginning his third year in our school this year is our principal MR. DAVIS. He holds both a BS and MA from Purdue University. We have seen many fine improvements in our school and in our program largely through his hard work and leadership. All of his time isn't spent in administrative work as many of his hours are spent counseling students in regard to their problems.

A new face in the school this year is MRS. BLACK, who just started in September. She works in the office and also transports handicapped children to a school in Hartford. We have enjoyed having Mrs. Black with us during the school year.

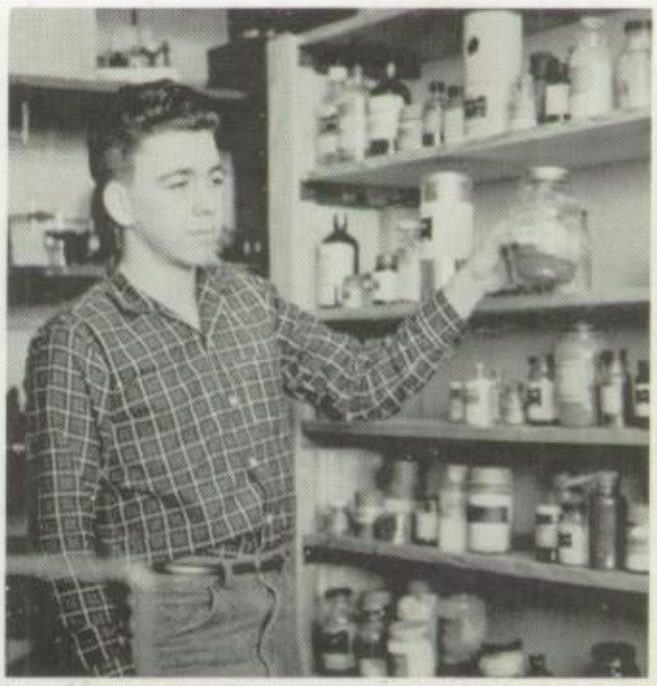
Beginning her fifteenth year in our school this year is BETTY GROVES. She keeps the records and is secretary to Mr. Hayes. She also holds a clerk-teacher license which she received because of her number of years of experience.

Our administration's goal is managing well the school entrusted to them by the State of Indiana. Trying to provide the very best educational opportunity possible to the students of M. H. S.
Always striving for a better school, Mr. Davis and Mr. Hayes, pictured above are talking over one of their many day-to-day administration problems. The scene is a familiar one to us all.

GOAL OF THE ADMINISTRATION

During the summer vacation, our desks were improved by refinishing them with a new rough-type paint.

A handy addition to our schools fine equipment is the electric Mimeograph machine.



The chemistry supply room was painted, new shelves were put in, and stocked with the latest chemicals, which include the latest high school equipment and supplies with which to study Radio Activity.

FACULTY

JEANETTE REA has an A. B. and an M. A. T. degree and teaches English. She is the school librarian, and sponsor of the Library Club. She is also sponsor of the eighth grade. She did a fine job directing the Junior Class Play. Miss Rea is giving her class a pep talk on reading more library books during National Book Week.

From Speech And Spelling. . .

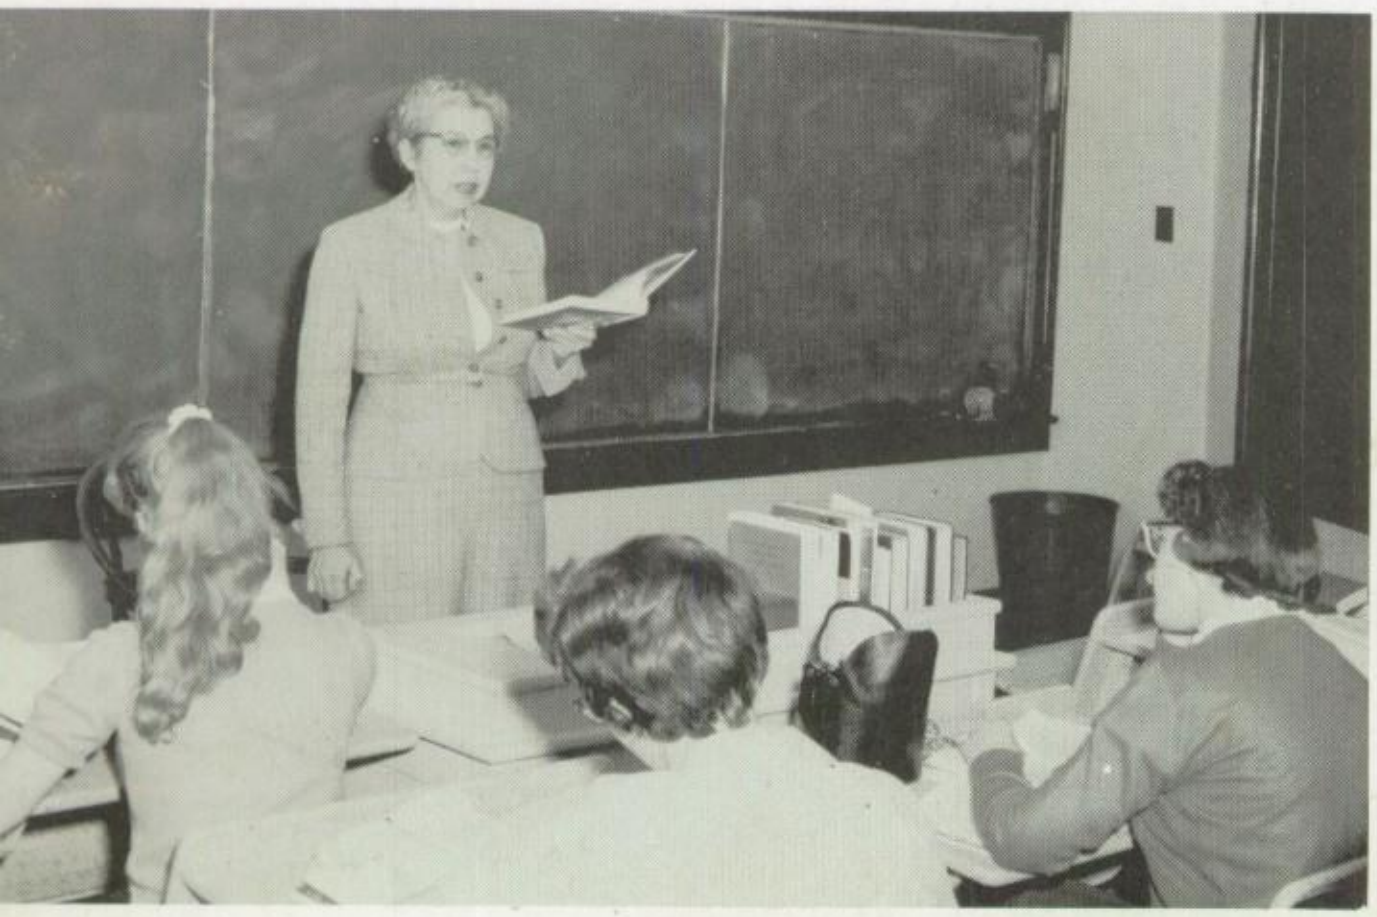
At MHS the Language Arts Department emphasizes the practical aspects of English. We are taught that English is of vital importance to our lives; a good understanding of the English language offers us an aid to a more complete and better life. It serves as a means of communication with people and books. Without English we would not be able to broaden our knowledge as we do by reading books and listening to other people who help us to educate ourselves.

It is used in our everyday life more than any other subject. We use it not only when we are in our English class but wherever we happen to be with other people. We could not enjoy the luxuries of our modern times, such as, television, radio, motion pictures, and many other things without a thorough knowledge of the English language.

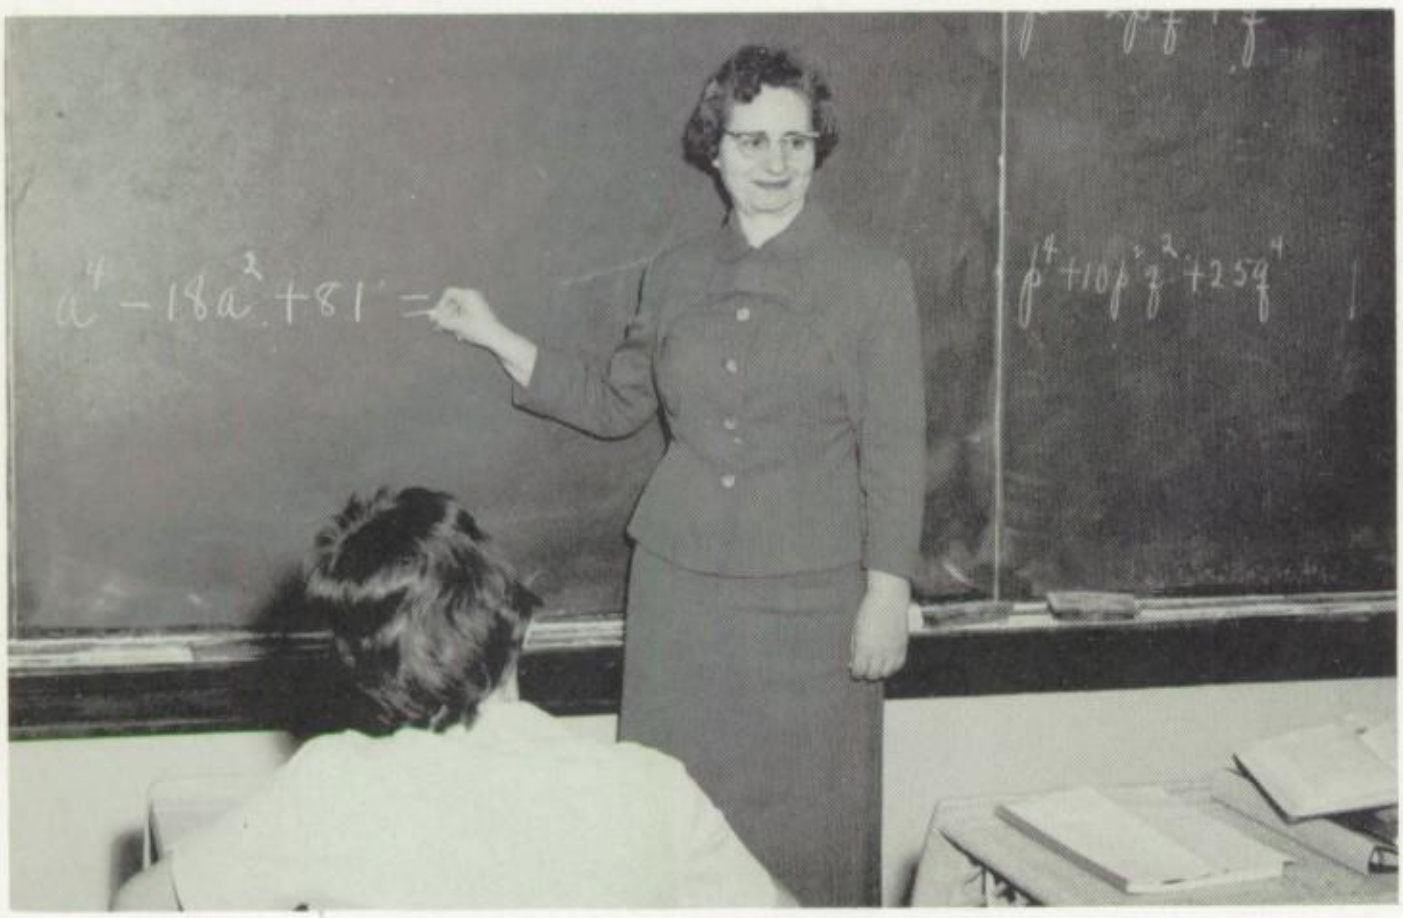
A person who has the skill to listen, think, discuss, observe, and speak intelligently, will find that life will be much easier. Business life and social life will be much more successful.

Although we are only required to take English three years during high school, many seniors sign up for their fourth year as a further preparation for a fuller education.

We are very proud of our English department and feel that those who take advantage of the opportunities offered will gain many benefits.



MRS. LILLIE SNYDER, holding an A. B. and an A. M. attended Indiana State Teachers College, Indiana University, and Purdue University. She teaches English, sponsors the Sophomore class, the Junior Dramatic Club, and the school paper. Mrs. Snyder is instructing her Senior English class on how to write a theme.



JANICE NELSON HOLDS AN A. B. degree and teaches Latin and mathematics. She is the activities treasurer, and a member of the Student Affairs Committee, sponsor of the Ra Von Dramatic Club, and sponsor of the Junior class. Miss Nelson's expert guidance helps her algebra class to understand those difficult problems.

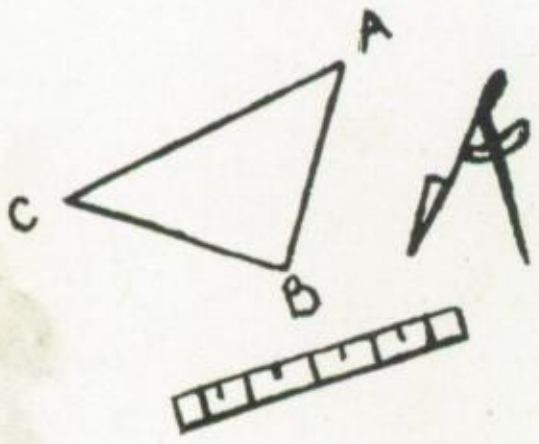
. . .To Symbols and Sines

At the first of the year, all those little symbols and formulas floating around in our heads meant very little to us, but as the year wore on, and our erasers wore out, we began to understand the principles of math set before us by the ancient mathematicians and thoroughly drilled by our competent teachers.

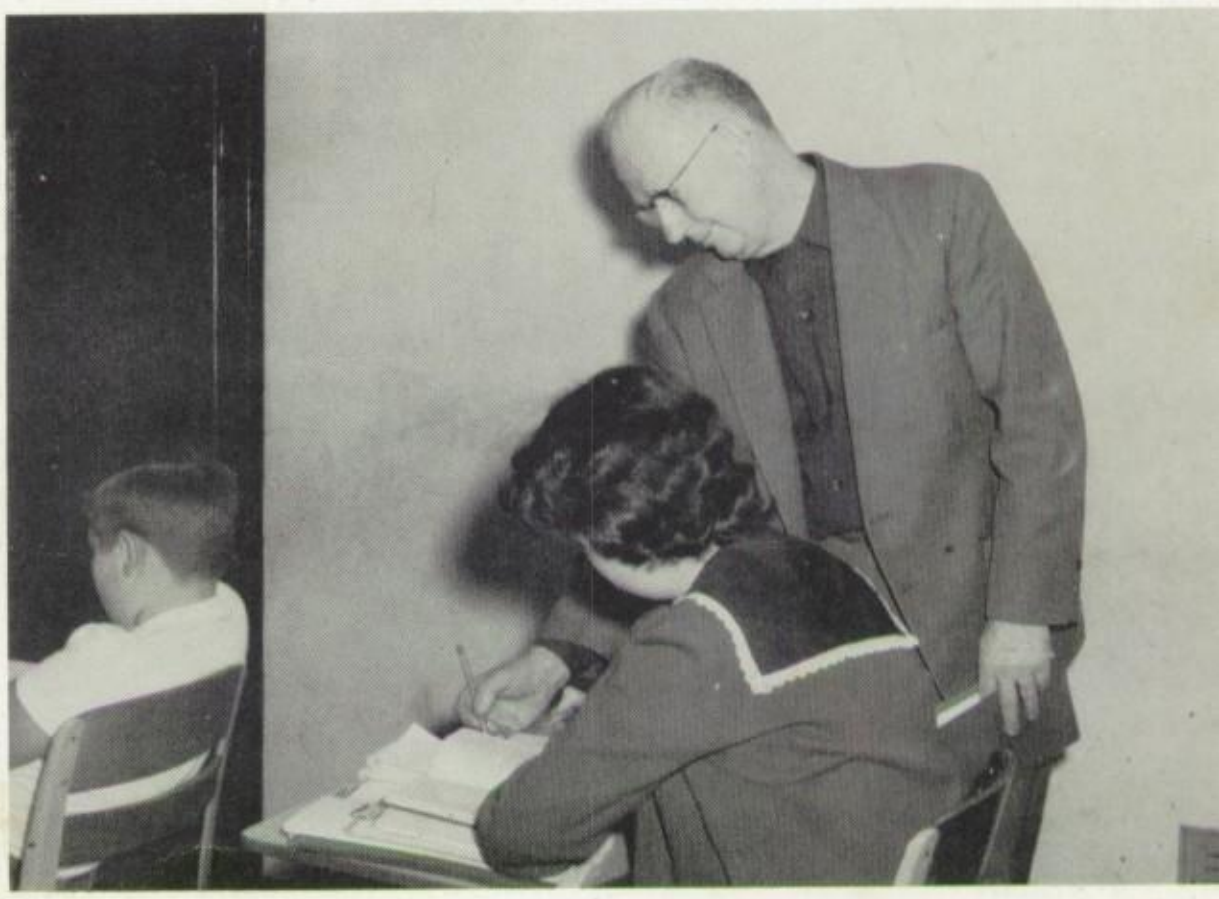
Spurred by the Russian launching of the first satellite, "The Sputnik," math became one of the main stepping-stones in the path to the future.

Math may be used to determine the construction of a build-it-yourself space ship, or the operating panel of your own personal robot maid. Today, math has determined the designing of jet airlines, bridges, and machinery. These things were made possible only by those students who once sat in the place we now occupy.

This year, to keep up with the pace, a four year math course has been offered. This includes algebra, geometry, advanced math, and trigonometry. All of these might make it possible for one of us to be one of the great mathematicians, or scientists of tomorrow.



CLAUDE L. ADDINGTON has a B. S. degree and teaches mathematics. This is his first year at Montpelier. He sponsors the Freshman class. Tough problem Ann? Mr. Addington can help you.



The influence of the science department here is felt around the world. Above is pictured Gerhard Schiel, Austrian student, who is taking chemistry.

MR. JAMES COPPOCK, holding a BS degree from Ball State Teachers College, teaches commerce and chemistry. He is shown giving an experiment for his chemistry students. He sponsors the Senior Class and the Annual.

Preparing For The Future. .

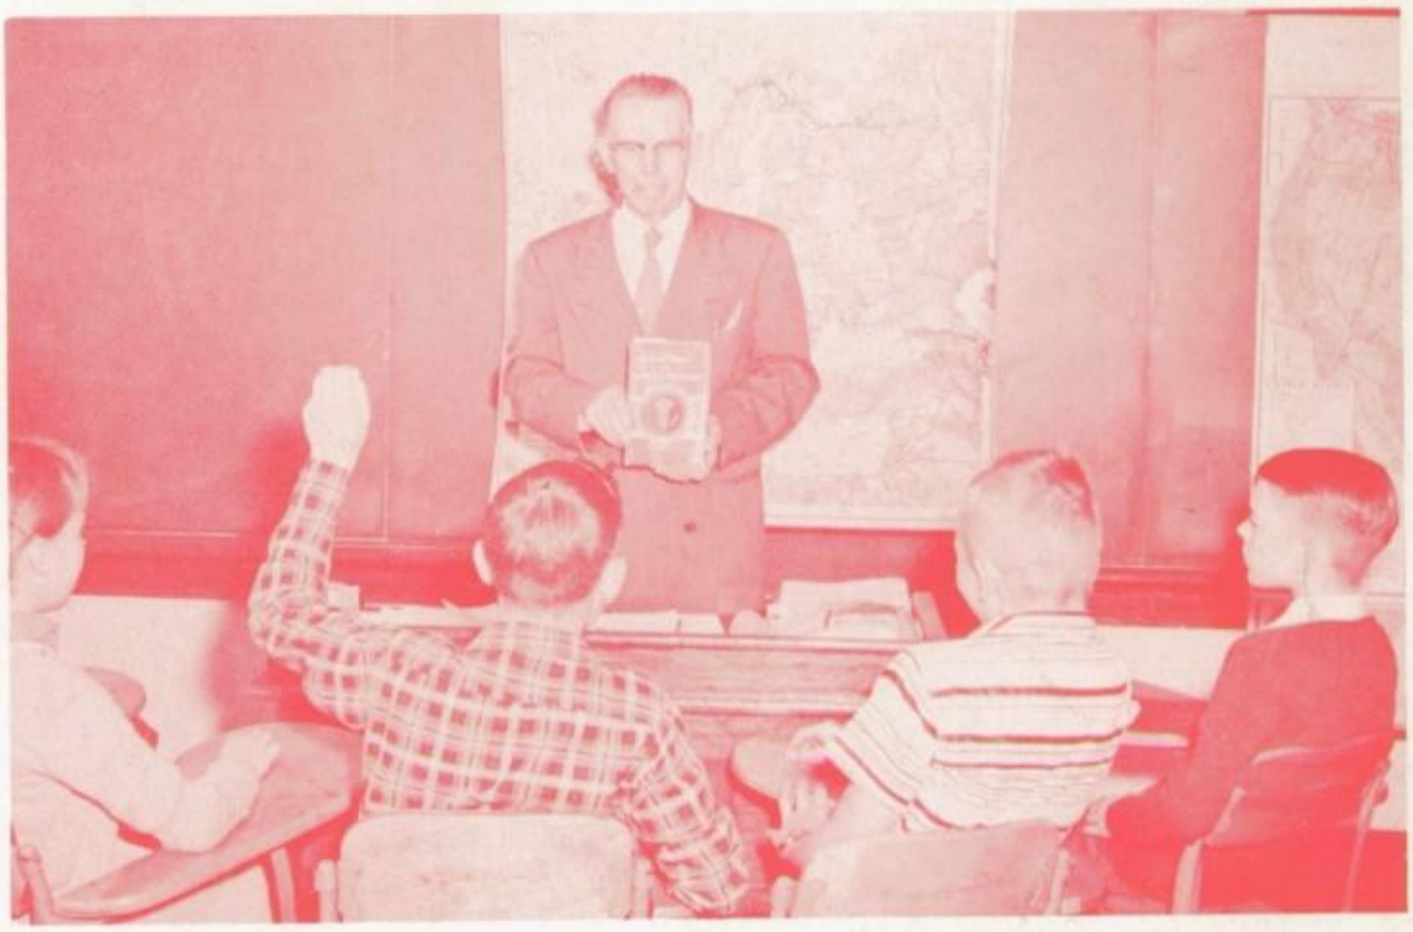
In this space age, much emphasis is placed upon the study of science. To keep pace with modern inventions and current space travel, we study our sciences intently. Our country has been one of the world leaders in scientific technology in the past and we are constantly trying to improve what we now have. The training for this starts in our school with our modern lab equipment... we are able to perform many different experiments even to the extent of setting off a small rocket.

In our science classes, we learned the composition of the surroundings that make up the world. In Biology and General Science we were taught the methods used in conquering the diseases of modern times and about the lives of plants and animals.

These things we learned in our science classes were in preparation for the future. The knowledge we acquired in class will help protect us from conflicts with other nations over such things as space travel and other new scientific advances.

MR. HARLEY JUSTICE, with a B. S. degree from Purdue University, teaches Agriculture, Biology, and Science. He is shown explaining the fundamentals of Biology to several of his sophomore students. He is the assistant coach, and sponsors Student Affairs, Student Council, 4-H, FFA, and the Dance Club.

1898-1917-1941-1951-1959



MR. LUTHER GLANCY, who has a B. S. and M. A. from Ball State, teaches Social Studies. In the picture he is stressing the importance of Social Studies in the world today, to one of his Junior High classes. He is sponsor of the eighth grade class and also the Projection Club.

. . LEARNING FROM THE PAST

A great authority on the teaching of history once said: "Everyone knows what history is until he begins to think about it. After that nobody knows."

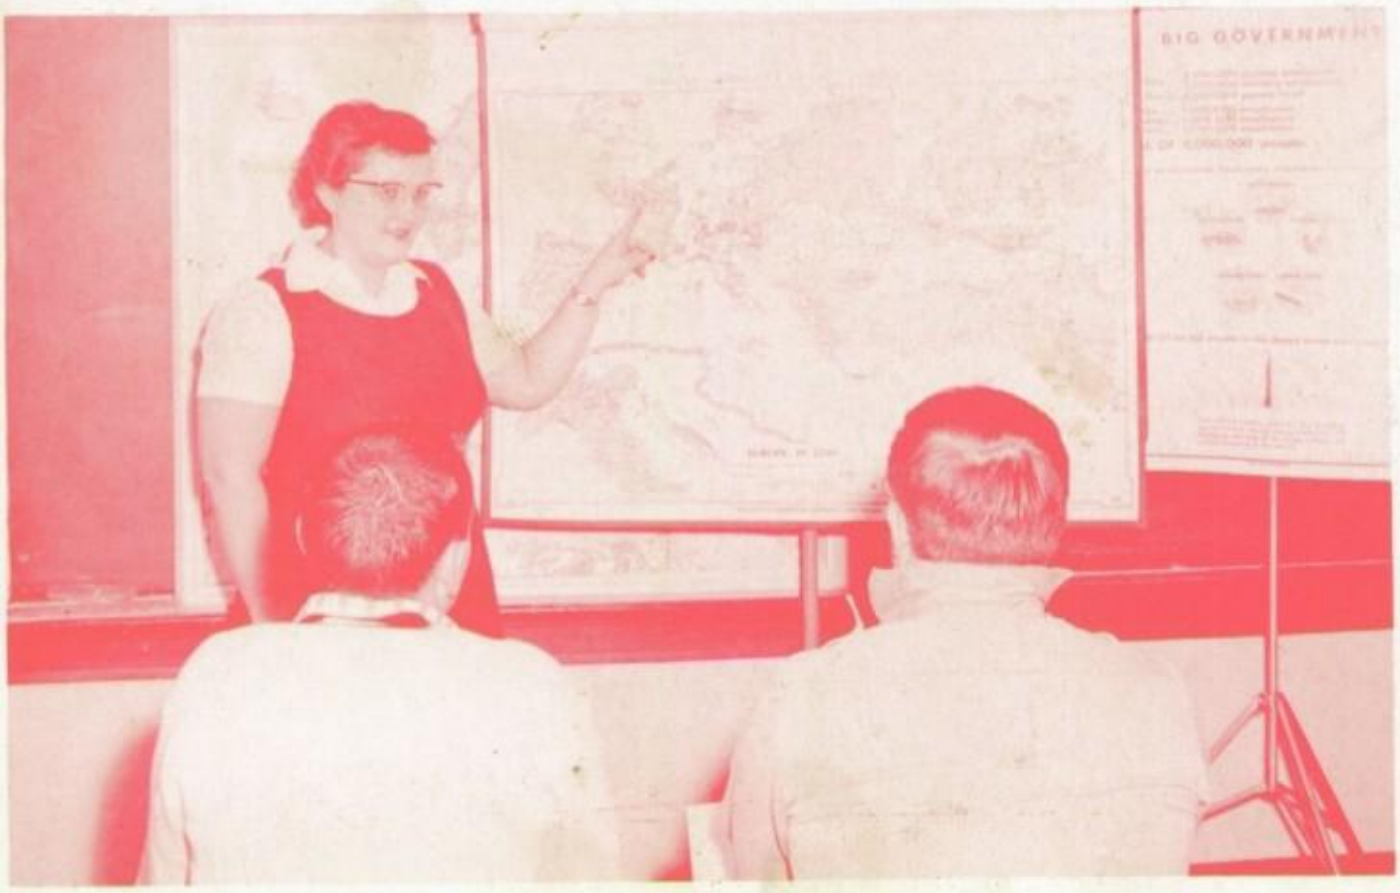
People think that history is everything that has happened. A more common use of the word is a complete recorded story which gives an account of past events and arranges it in the order in which it has occurred.

As man learned to write he recorded these happenings. At first they appeared inscribed in caves and on implements.

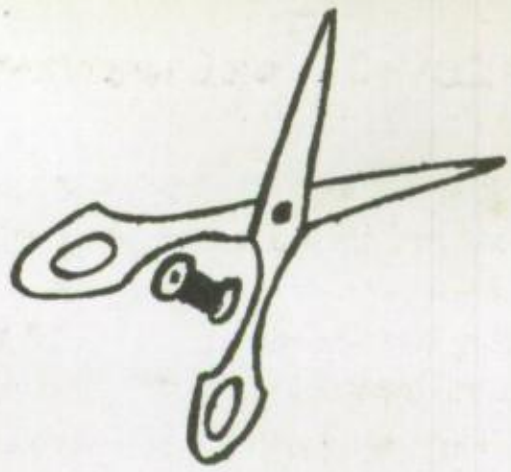
Later they appeared in books and on paper which offered a way to preserve past happenings.

History may be taught to win support for a particular political regime. Under Hitler and Mussolini the texts of Germany and Italy were quickly revised to lend support to the history of the Nazis and the Facists.

History develops patriotism. Through the teaching and reading of history, everyone learns to love and respect their country, and admire its heroes. This plays an important role in our intellectual life, and gives us a better understanding of the world we live in today.



MRS. NELLIE WILLIAMS teaches Social Studies and General Business. In the picture she is locating France for her World History Class. Her college training was at Central Normal and Butler University where she received a B. S. degree. Mrs. Williams is sponsor of the Freshman class, on the Student Affairs Committee, sponsor of the Student Council, and the Y-Teens Club.



MRS. GHLEE KERSHNER, with a B.S. degree from Indiana Central teaches home economics. In the picture at the right, she is showing two students the importance of good cooking. She is co-sponsor of the senior class, and directed the Senior class play. She is also sponsor of the FHA.

PREPARING FOR A CAREER AND .

Learning to bake that first cake and to sew a straight seam are the happy experiences of each new home economics student. The girls work hard at learning to be homemakers in preparation for their future lives as housewives. In our home economic classes, we not only learn to bake and sew, but we also learn how to arrange and decorate our homes. Then, too, we receive hints on how to be a good baby sitter, learning that patience is the key word. Housework isn't all work as some may imagine. In class we learn to make it enjoyable and interesting by inventing new recipes and creating new and different fashions of clothes.

When it comes to entertaining, the girls are all prepared. The meal and its setting are fit for any king. The boss or those ladies in for tea will certainly be impressed.

At Christmas time we were taught how to wrap packages so they would look like the work of a professional. The credit goes to those well spent hours in our home ec. classes where we acquired this knowledge. No longer is the title "Homemaker" regarded with little esteem. It is thought of with respect and admiration. Any girl would be proud to obtain this name.

VIRGINIA RUNYON, with a B.S. degree teaches Health, Home Economics, and Physical Education. She is sponsor of GAA, and co-sponsor of the Junior class. Her help as sponsor of the Junior-Senior Prom was much appreciated.

The students at Montpelier prepare themselves for a future career and a profession by attending their various classes and gaining the knowledge that will benefit them in later life.

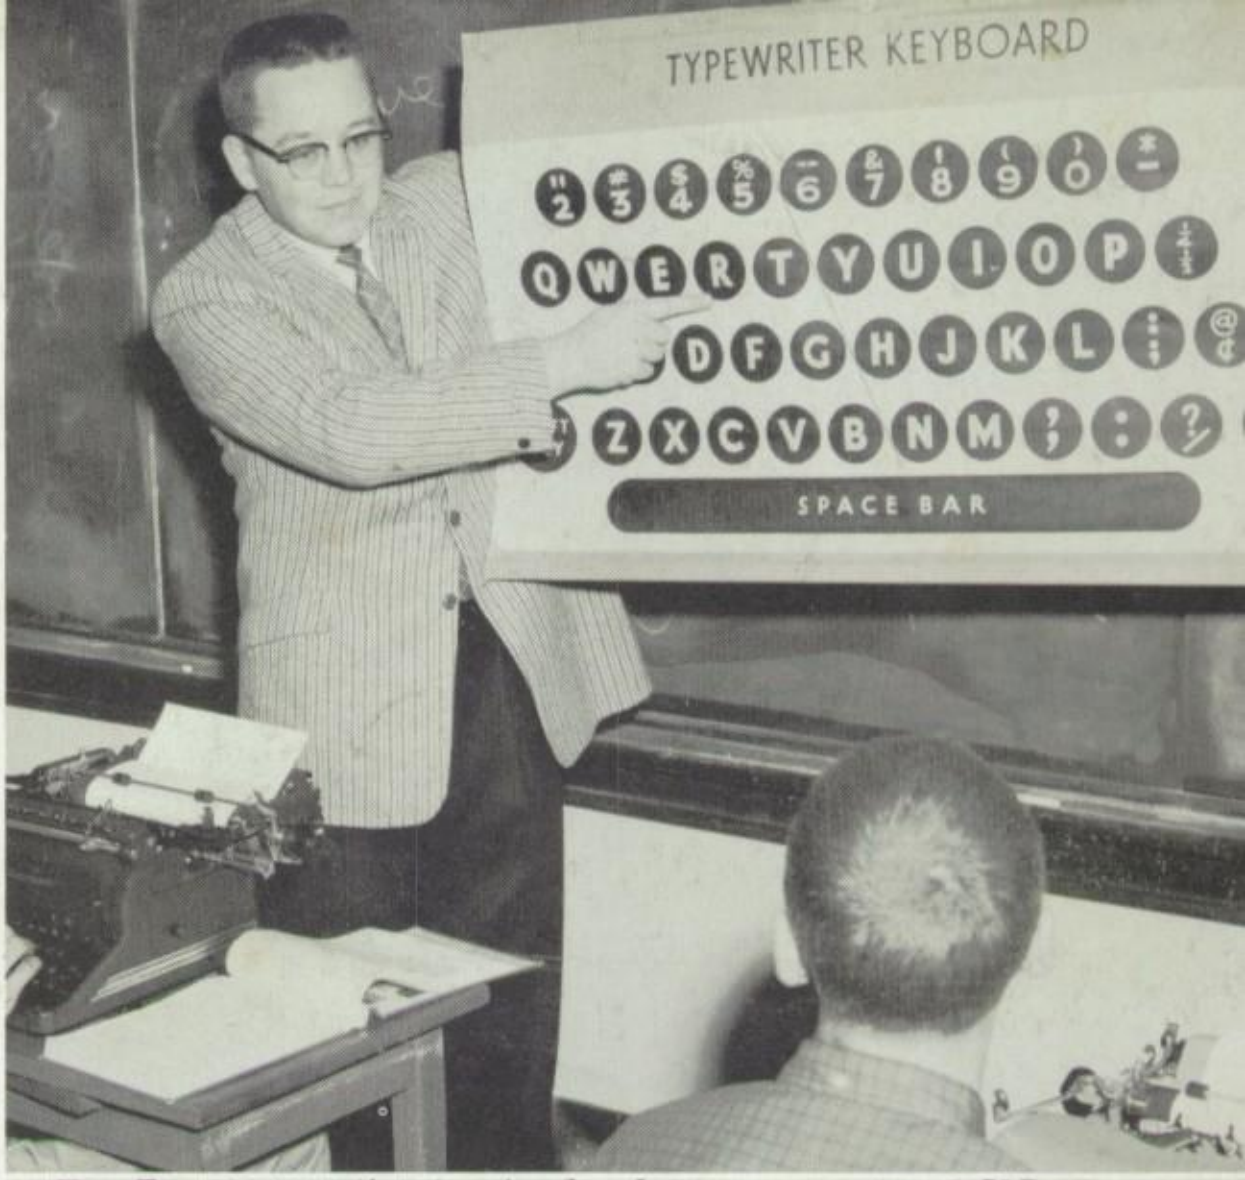
The boys taking shop can use their training in the future no matter what they may choose as an occupation. A handy man is always helpful around the home when a do-it-yourself job is available.

Commercial classes offer opportunities for future secretaries and businessmen. Even if the student doesn't wish to obtain a job after graduating that requires typing skill, bookkeeping, or general business, the training is very useful. In the past type-

. . . A PROFESSION

writers were uncommon but at the present time, many American homes are equipped with them. At the right, Mr. Coppock is shown locating the "R" on the typewriter keyboard to his typing class.

Safety on the highways is being guaranteed for the future due to the increased interest in driver's training. The students are taught the good habits of driving before they have the chance to learn the bad ones that often lead to accidents. The drivers learn that the show off at the wheel is an immature individual and is a threat to another person's life.



Mr. Johns, holding a B. S. degree attended Purdue University, Ball State the University of Wisconsin, and Indiana University. He teaches science a shop and he sponsors the Seventh Grad and the Junior Dramatic Club. Above he is shown demonstrating the use of a plane to two of his students.

Carl Honaker holding a B. S. degree, attended Taylor University. He teaches physical education, drivers training, and commerce. He sponsors the Sophomore Class and is the father of a future basketball star, Mark Aller who is two years old.

At the left he is pictured relaxing with two of his students after a driver training class.

SKILL THROUGH HARMONY AND MELODY

MISS MARY A. RICE, with an AB degree from Central Normal College, teaches grade school art, high school art and seventh grade English. She is a co-sponsor of the 7th Grade.

He is shown explaining the diagram of a saxophone to two of his junior high students. He sponsors the Freshman Class.

SENIORS

SENIOR COMMITTEES

The success of each and every class depends upon the ability of its students to work together. A beautiful graduation is the goal of every Senior Class. For this reason, the Senior Class officers selected the following three committees to plan the Senior activities. All Seniors are included on some committee, such as Baccalaureate and Commencement decoration committees, play committee, and the annual skit committee, while others have planned and participated in convocations.

COMMENCEMENT SPEAKER COMMITTEE

Pictured above: Rodney Black, Roger Fishback, Barbara Yadon, and Judy Hiser.

CAPS AND GOWNS COMMITTEE

Shown below are: James Braden, Pat Coffield, and Jo Ann Bontrager. Absent when the picture was taken: Harry Meyers. The committee, with the approval of the class, selected gray as the color of the gowns.

BACCALAUREATE SPEAKER COMMITTEE

At the right: Ed Kershner, Ralph Thiery, and Lois Pethtel. Absent when picture was taken: Pat Scott.

A FORWARD LOOK

Shining through the years will be the accomplishments of the class of '59. We are proud of our honor students and athletes. Since we started in the first grade with 66 members in our class, we have lost several of our old classmates, and gained many new ones.

Our senior class of 55 members looks back with pleasure on the past twelve successful and wonderful years.

We also look with anticipation to the future years when we shall go into the world as scientists, engineers, secretaries, and housewives.

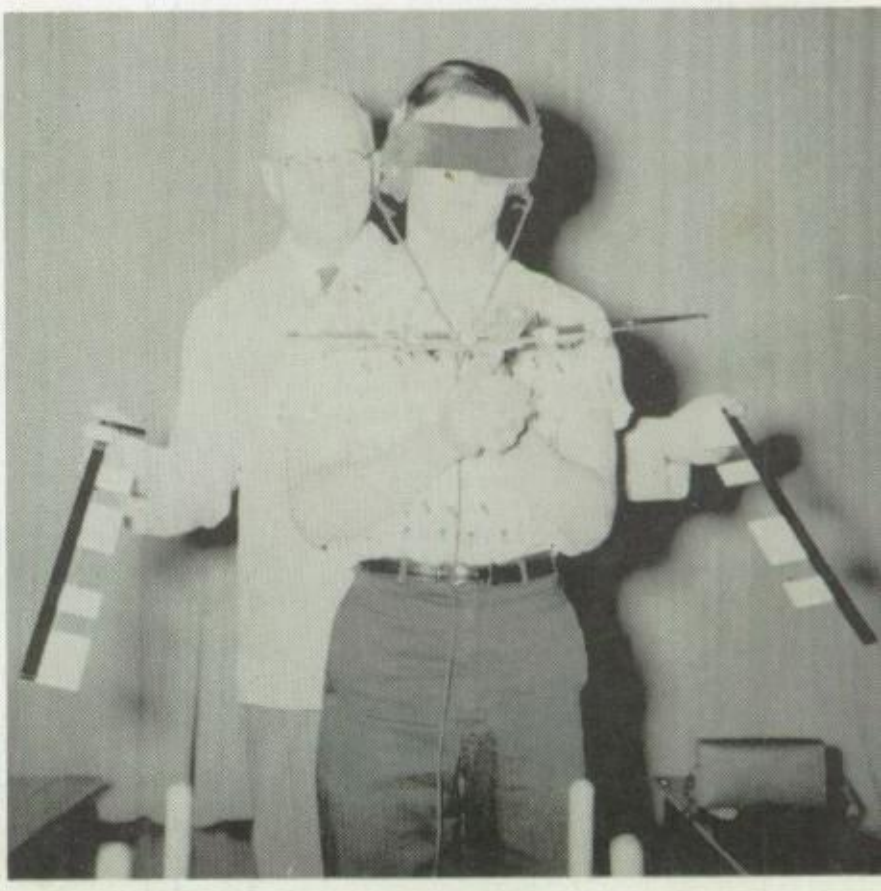
JUNIOR MEMORIES



The class has built many wonderful memories while accomplishing much. The riotous class party..... the fun we had in presenting the class play..... the mental and physical work that went into making the Prom a beautiful success.....and, most important of all, our academic step-up to becoming Seniors of next year.

SOPHOMORES

SOPHOMORES

We, the Sophomore Class, began the year with sixty-four students. We lost two, which were Dave Nestleroad and Ronnie Norris. We chose for our class officers Lois Manning, president; Marvin Heiny, vice-president; Tom Kennedy, secretary-treasurer; and Kay White and Dee Schwarzopf, as one-year student council members. The sponsors of our class are Mrs. Snyder, Mrs. Justus, and Mr. Honaker. Our convocation was April 17, and our class party was November 20. In the spring we participated in a magazine sales campaign.

FRESHMEN

FRESHMAN

We, the freshman class, started out the year with a class total of 61 members. We elected our officers at the first class meeting. They were: Ann McVay, President; Clyde Hudson, Vice-President; Mike Roush, Secy-Treasurer; and four members to the Student Council. Our calendar included a convocation and class party. Although we began the year as bewildered freshmen, we left feeling confident and looking forward to our next year of school.

The play was a three act comedy. In the first act Jane, Sally, Rose, and Marilyn schemed to get dates for the J. S. dance which was to be held in the near future. The boys undated for the dance were scarce. To make matters worse, two girls came to visit them who captivated the hearts of the remaining few available males.

Andrew Cutler and his neighbor Mr. Ahern added more bustle to the household by taking part in a flower contest. Each was very proud of his entry, especially Andrew Cutler who raised prize peonies.

The confusion began when the visiting girls picked the peonies unaware of their value. Mr. Cutler was wild with rage and the girls were still without dates for the dance. The play had a happy ending though when the girls each got to attend the dance and Mr. Cutler forgave them for their mistake.

SYNOPSIS

A delightful comedy, Headin' For A Weddin', opens with our hero, Homer Hollowbone, falling in love with a debutante whose picture he found in a newspaper. He begins corresponding with her and exaggerates that he lives in a mansion and is a very refined person. Really he lives in a shack in the mountains with his shiftless family. Maw and Fanny work hard, Paw only eats, sleeps, and teaches Gloria, his pet skunk, to do tricks. Sarah Jo and Gracie spend their time chasing boys. While Homer is writing a letter to Melissa Dugan, Gracie May grabs it. Paw insists that it is a "Courtin'" letter and demands to know the girl's name. They jump to the conclusion that it is Bertha Blairhouse, just as she, her widowed "Maw," and her brother arrive to take refuge from the storm. An unexpected guest arrives, Melissa Dugan herself! Homer's identity is revealed and the fuedin' starts. Homer finds himself engaged to the boisterous Bertha....until Gracie tells Bertha that he has periods during which he thinks he is a dog.

"Look at thet! As fur as I'm consarned
the fued's on! I'm too young to die."

ATHLETICS

GOOD LUCK YOU PACERS

With faithful attendance at each and every ball game, the Booster Club composed of over one hundred members of the senior high school, showed their enthusiasm and spirit in the backing of their team, the PACERS.

Committees were chosen that were essential for a good Booster Club. The Poster Committee made posters for important games, rallys, pep sessions and dances. The members were Jerry Kershner, Bob Berry, Barbara Anderson, Barbara Simpson, Pat Quillen, and Sandy Slentz.

The Money-Making Committee thought of ideas for making money for the club. The committee members were Betty Burchard, Danny Williams, Ann McVay, Kay White, and Pat Scott.

The Dance Committee, planned dances to be held after home games. It was made up of Lois Pethtel, Ylonda Wise, Cynthia Kelsay, Jo Ann Bontrager, Jack Norton, Bucky Buckmaster, Nancy Hornbaker, and Beverl Weatherholt.

The Attendance Committee, took attendance during each meeting. It included: Pat Coffield, Charles Wentz Jeannine Schmidt, Steve Ruble, Rita Davis, Howard Williams, Nelva Ickes, and Danny Edmonds.

ATHLETIC BOARD

This board, with Mr. Honaker as President, Steve Schwartzkopf, Vice-President, and members Mr. Davis, Sandy Slentz, Mr. Hayes, and Miss Runyon, distribute the responsibility as well as knowledge of the athletic affairs to the high school. It keeps athletic events and contests wholesome and profitable.

Harry Myers gives that long wind up for a fast one right over the plate.

SPORTS CANDIDS

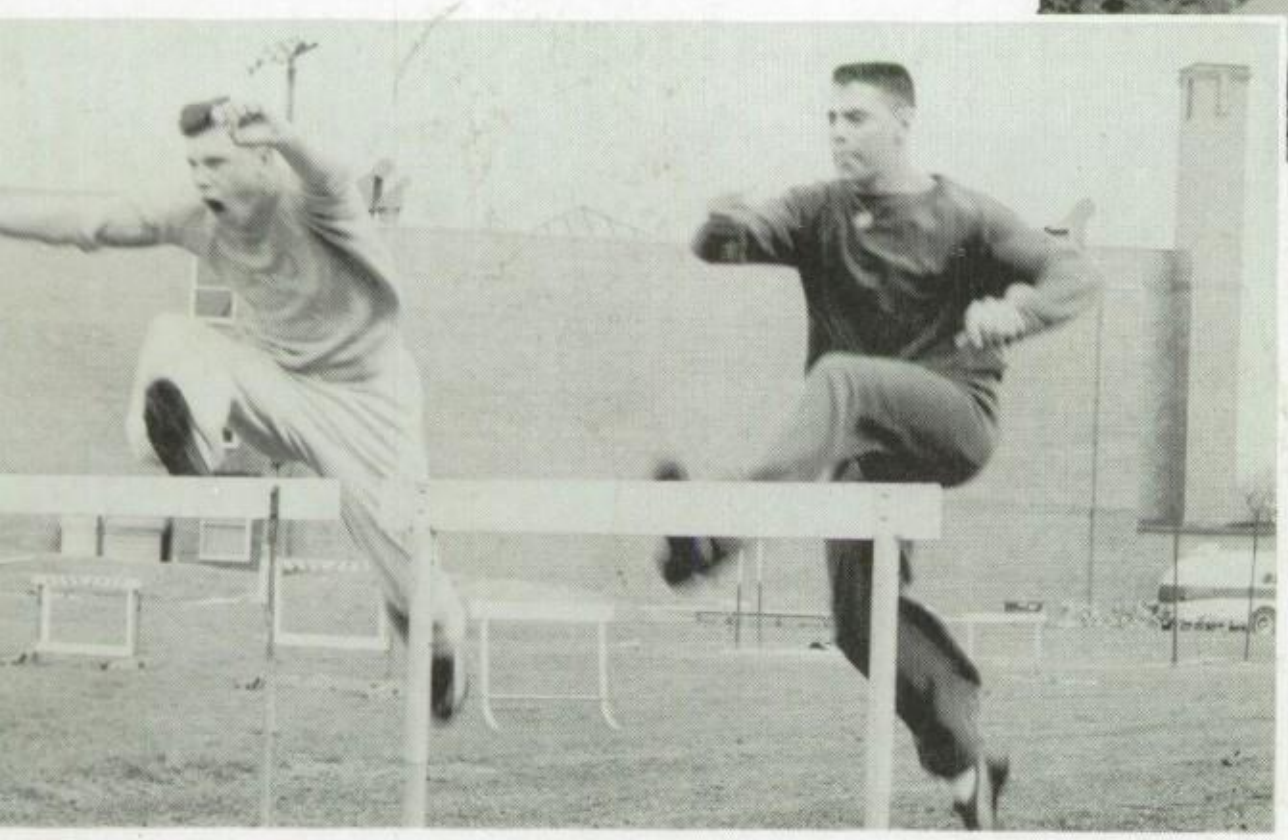
With seven regulars returning from the previous year, the Pelier baseball team looked forward to a successful season. After getting off to a good start by defeating Redkey in the opening game they were handed defeat by a very good Albany nine. After being defeated by Albany the Pelier team bounced back to whip Warren for their second win. Pelier suffered their second loss at the hands of Pennville in an important conference game. Near the end of the season the Pelier team reached their peak by defeating Roll and Bryant to end the season with an honorable four wins and two defeats.

TOP HITTERS OF THE SEASON

Ed Kershner	.357*
Ferrell Long	.273
Rodney Black	.222
Roger Fishback	.215
Steve Ruble	.215

*Ed Kershner was awarded a gold trophy for his high batting average.

Don Simpson tags that man for the third out.



Terry and Rodney Black battle for first place in the high hurdles event.

TRACK

With an experienced and well balanced team, Coach Honaker's cinder men finished the season with a fine record.

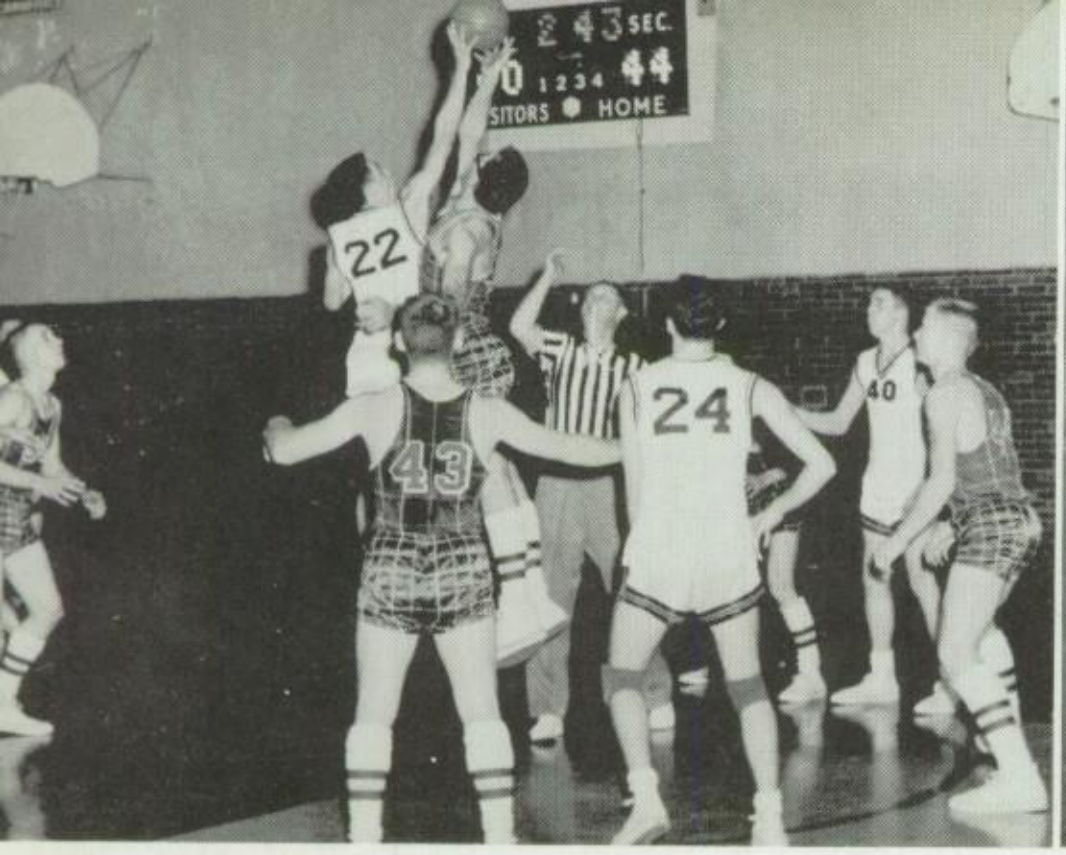
Personal honors for the season went to DeWayne Grove, who broke the High School shot put record by throwing the shot a record breaking 47' 11". The record had been 46'.

PELIER CINDER MEN

The pacer track men suffering from the loss of five seniors, faced a problem of filling the positions vacated by the graduates of 1957. The positions were filled, and with as much skill as they had been the previous year. The pacers finished the season with a very good record. During the season there were many outstanding players, but in all, the whole team turned out a very good season's performance.

Row 1: Marvin Heiny, Don Simpson, Dee Schwarzkopf, Steve Schwarzkopf, Howard Brock, Donnie Kellogg, Jay Coffield, and Rodney Black. Row 2: Steve Ruble, Jim Morris, Ed Kershner, Peter Erne, Dewayne Grove, Mike Ray, Tom Armstrong, Charles Wentz, Eddie Braden, and Coach Carl Honaker.

Above, Mike Ray warms up for the mile run which he ran extremely well. During the season Mike came very close to breaking the high school record. At the left Ed Kershner clears the high jump bar for a good jump. During the season, Ed and Charles Wentz, the top high jumpers for the Pacers, took many honors for their skill.



Dick is always there to get that tip.

Ed takes aim to assure another basket for the Pacers.

eals that ball for a long drive down

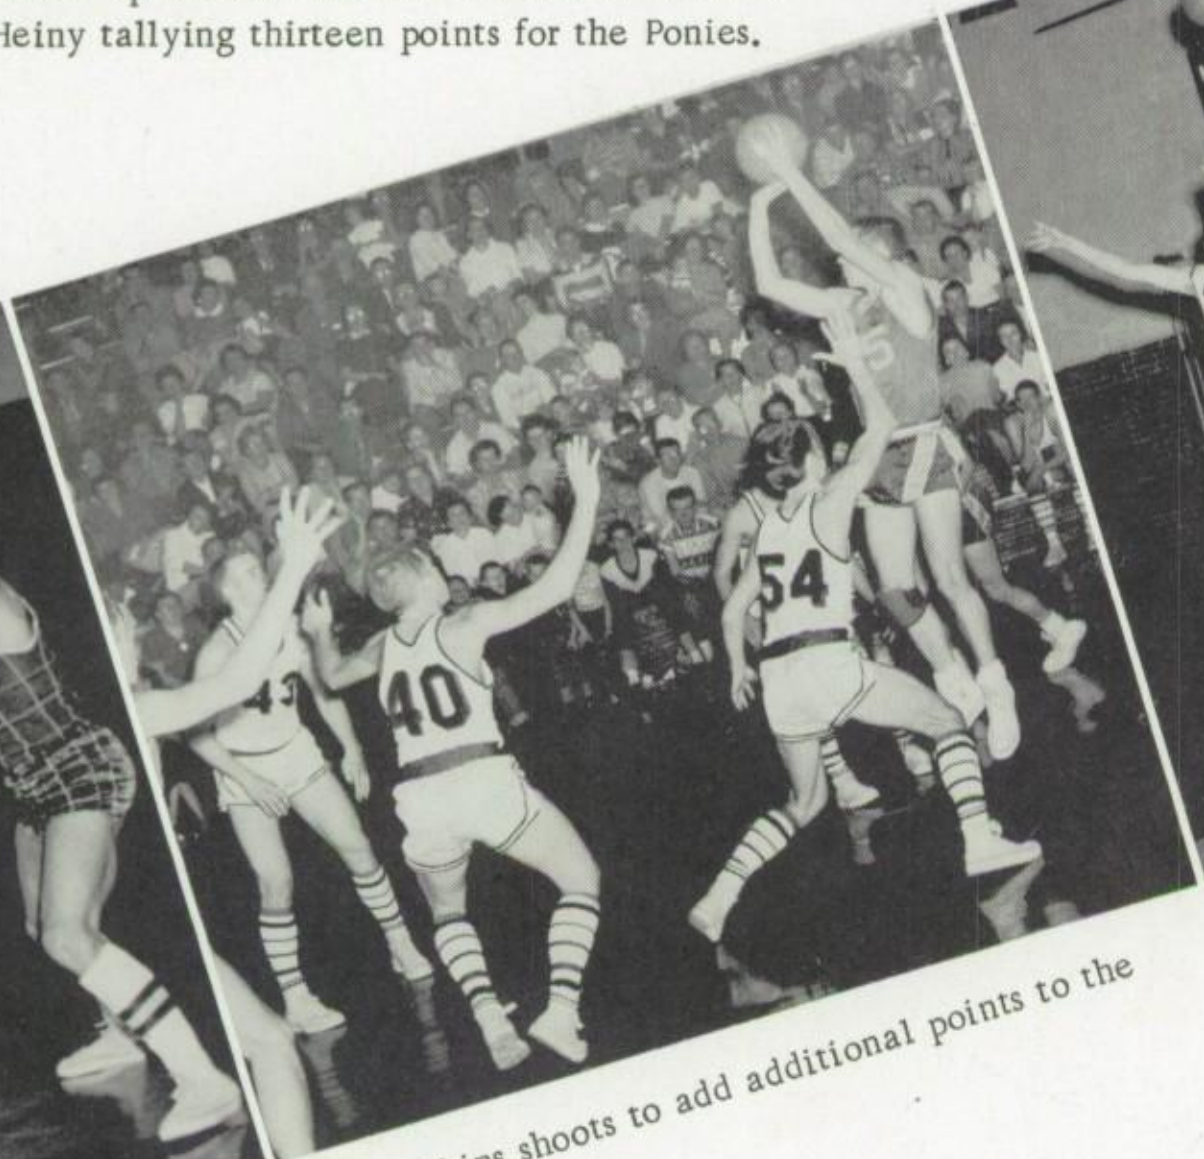
Mike Ray tallies one against Lancaster in an early season game.

HIGH POINTS OF THE SEASON

The excitement of a tense ballgame!!! Remember the triple overtime of the Pennville game? Our evening was made complete as Robbins dropped in two foul shots to clinch the sudden-death overtime for Montpelier. When we beat Hartford City! Our second team, playing a hard game, racked up another win with a score of 36 to 27 with Marvin Heiny tallying thirteen points for the Ponies.

Fishback rushes out and around to receive a pass from Ray.



Robbins shoots to add additional points to the Pacers score.

Mike jumps high to get that tip ball.

Bales shoots to make that score 41 to 36 in favor of 'Pelier.

VARSITY CHEERLEADER

Left to Right: Pat Quillen, Pat Scott, and Sandy Slentz.

At the time the annual was sent the second team won six games and lost nine. Their most impressive win was against Hartford City in a real thriller. Their highest scorer of the season was Don Simpson with sixteen points against both Roll and Geneva.

Row 1: Kay White, Nancy Hornbaker, and Beverly Weatherholt, second team cheerleaders.
Row 2: Glen Rogers, Ron Simpson, Ronnie Yadon, Kirby Edmonds, Jim Morris, Jim Miles, Larry Forrester, and David Foy.
Row 3: Ronnie Everhart, Clyde Hudson, Sonny Carnes, Coach Carl Honaker, Bruce Prouty, Marvin Heiny, and Jim Moyer.

PONIES

GOOD LUCK TEAM!

Nancy Hornbaker, Pat Quillen, Beverly Weatherholt, Pat Scott, Kay White, and Sandy Slentz, our first and second team cheerleaders, had done a splendid job coaching the Booster Club and backing the team.

FROSH

The freshman team coached by Harley Justus, our new agriculture teacher had a fairly good season despite the injuries that hindered them throughout the season. At the time the annual was published, the freshman had won 4 games and lost 7. Row 1, Sally Slentz, Maria Thiery, Loretta Smith. Row 2, [illegible] Reese, Ronnie Yadon, Mike Roush, Larry Forres and Richard Shaner. Row 3, Dannie Williams, Billy Ledbetter, Myron Love, Clyde Hudson, Da nie Edmonds, and Coach, Harley Justus.

JR. HIGH

Due to their lack of experience and height, the Junior High Team had won only one game at the time the annual was printed. They have shown a great improvement, during the season, and are looking forward to finishing the year with an honorable record. Row 1: Larry Cook, Ronnie Houser, Johnny Schwarzkopf, Paul Runnels, David Goodspeed, and Albert Fear. Row 2: Student Manager Ronnie Rutledge, Gary Rogers, Ora Hartley, David Price, Kenny Love, Mike Shadle, Junior Ely, and David Horrom. Row 3: Tommy Markley, Tom Michaels, Jim Schwartzkopf, Dannie Harold, Coach Harley Justus, Dennie Brown, Mike Weaver, and Larry Eliot.

CROSS COUNTRY

The Cross Country Team coached by Harley Justus had a good season, winning two of the three meets and placing second in a four way meet held at Geneva. Row 1; Bill Armstrong, Don Kellogg, Kirby Edmonds, Bill Robbins and Jim Morris. Absent when pictures were taken Keith Headley, Manager. Row 2: Coach Harley Justus, Mike Ray, Jim Braden, Don Simpson, Gary White, and Eddie Braden.
